BOILER CHALLENGE - IMPORTANT INFO

It is VERY important that you share this information with your group!

WEATHER and ATTIRE

The Boiler Challenge is held in nearly all types of weather, so be prepared! This is an outdoor activity, and weather is just one more element in the challenge. Cancellations will occur in cases where the weather may cause imminent danger on the course, such as lighting or heavy rain. The Boiler Challenge is outdoors in a lightly wooded area, and there is a chance that you will get dirty. Wear clothing that you will not mind “scuffing” up a bit.

Shoes should be closed toed and closed heeled that fully cover the foot. No sandals, flip flops, or similar. 5-Finger Shoes are NOT permissible. We recommend that you wear sturdy and comfortable shoes such as sneakers, running shoes, or hiking shoes. You will absolutely not be permitted on the high team challenge course without proper footwear. You may also be limited on low challenge elements that you are permitted to participate in.

Clothing should be loose, casual, durable, comfortable, and layered (suitable to the season).

Jewelry & watches head gear, & sunglasses are best left at home or in your car in a safe place as we ask that they be removed before going on most elements of the course.

Head gear & sunglasses are allowed; however they may need to be removed during some activities.

Glasses and contact lens wearers should take any precautions that you would normally taken when participating in outdoor activities in order to protect your eyes and your eyewear.

Smoking, tobacco products, and gum are not permitted on the course or during any break periods.

Water will be provided; however, participants are more than welcome to bring their own water. It is highly recommended that in warm weather, participants on the High Challenge Course bring a water bottle with a loop that can be attached to your harness.

Sunscreen is recommended particularly during the summer months.

If you have allergies or any condition requiring medication, please bring your medication or emergency kit with you to the program.

*High Challenge Participants, there is a 300 lb. per person weight limit on the zip line. If you have reason to believe this could affect your group, please contact Andrew Lyburn at 765.494.3066 to make arrangements/modifications.

If you have questions or concerns, please contact Andrew Lyburn, 765.494.3066.

If you come in with an open mind & good attitude, we can guarantee you will have a great experience. We can pretty much guarantee that you will have fun. If your group is prepared and open, this can be a very positive, meaningful learning experience that will help you and your group reach new heights in teamwork and cooperation.

We look forward to seeing you at the Boiler Challenge!
