**How do I get my test results:**

It depends on which test they took and how they took them.

- For Reading and Math, they would have received an unofficial score, on the screen, at the completion of testing. Official score reports for Reading and Math, taken individually, will appear in their account within 10 business days after testing.
- For the Writing subtest taken individually OR if they took all subtests at the same time - the score reports for all subtests will appear in their account within 20 days after testing.
Refer them to www.in.nesinc.com and then Get Results. It will walk them through all of the information they need regarding obtaining their scores.
