Latinos in Science and Engineering (MAES) is a nationwide organization whose mission is to promote, cultivate, and honor excellence in education and leadership among Latino engineers and scientists. We strive for a future where Latinos are leaders in the engineering and science world.

AWARDS PROGRAM
Each of the organizations hosts a separate awards program to recognize outstanding academic and leadership achievements by engineering students. These awards are made possible solely by corporate contributions. Through the award recognition programs, chapters recognize and encourage continued success among their members and engineering students. If your company wants to sponsor an award, please complete the form below and return it by February 24, 2017.

MAES SPONSORSHIP REPLY FORM
Company Name (As it should appear on the list of awards and certificates) _______________________________________________________

______ Number of awards @ $ ________________________________

Co-op student at another company is eligible  □ Yes  □ No
